(404) 808-5270
linkedin.com/in/samclapp

Director-level ERP and transformation leader with 24+ years at The Coca-Cola Company. I owned the SAP Sales & Distribution and Order-to-Cash platform for North America, led its S/4HANA migration for 5,000 users, and ran the change programs that got people using it. I work best between Finance, Supply Chain and Technology: turning complex systems into clear roadmaps, and getting cross-functional teams to adopt them. I also design and build working AI-enabled workflow tools.

SELECTED RESULTS

5,000
users migrated to S/4HANA across a North America portfolio of 250+ beverage brands

500
plant users brought onto new SAP configurations and processes, with no loss of continuity

~$5M
partner spend governed across 5 technology partners and systems integrators

150
trading partners connected by EDI (940/945, 943/944, 856 ASN), including the largest customers

EXPERIENCE

Independent Work & Professional Sabbatical

Jun 2024 – Present

Founder, Unstuck (tech consulting) | Vice President, Atlanta Philharmonic Orchestra

- Founded Unstuck, a personal tech consulting practice for individuals and church ministry teams: troubleshooting, home network and smart-home setup, AI-enabled workflow automation, and digital signage (Blotch e-ink, Yodeck).
- Serve as Vice President of the Atlanta Philharmonic Orchestra, advising the board on operational clarity and stakeholder alignment.
- Built a full home automation system on Linux, GitHub and YAML, and designed working automation tools with large language models.

THE COCA-COLA COMPANY · ATLANTA, GA · 1998 – 2024

Director, Global Sales & Distribution Systems

May 2022 – Jun 2024

- Owned strategy and operations for SAP SD and OTC across the North America portfolio of 250+ brands, as senior systems lead for order management, billing and inventory visibility.
- Spearheaded the S/4HANA migration for 5,000 users, redesigning systems architecture, improving data integrity and financial close accuracy, and raising OTC process efficiency.
- Co-created the systems roadmap with Finance, Supply Chain, Procurement and Commercial, tied to enterprise transformation strategy.
- Led change management for 500 plant users, and governed 5 technology partners (~$5M) through Stages & Gates with executive reporting and P&L benefits tracking.

SAP SD Team Lead

Jun 2018 – May 2022

- Led 6 SAP analysts across the full OTC cycle (order management, billing, cash application, AR, distribution) and served as the escalation point for critical issues.
- Managed 3 major SAP SD release cycles a year, with enhancements tested, documented and deployed with minimal disruption to Finance and operations.
- Designed SAP processes for the Niagara outsourcing, the BodyArmor partnership and alcoholic-beverage hybrid flows.
- Built an emergency COVID-19 process that enabled hand sanitizer sales to McDonald’s within days of the request.

SAP Data Analyst

Sep 2006 – Jun 2018

- Built and owned 30 OTC performance dashboards (forecast variance, inventory exposure, fulfillment gaps, OTIF) used daily by 150 customer service representatives.
- Became the go-to problem solver in time-sensitive cross-functional meetings, finding root causes and translating technical constraints for Finance, Procurement and Supply Chain.

SAP Training Consultant & Education Specialist

Jul 1998 – Sep 2006

Earlier roles, including CCCi at The Coca-Cola Company

- Designed and delivered global SAP end-user training for Project Infinity across four continents (Atlanta, Ireland, Puerto Rico, and remote to Brazil), and documented OTC processes for a core SAP implementation.
- Delivered 10 SAP navigation sessions to 60 end users across all shifts in one week, earning top training evaluations.
